PART C: Roland Morris Low Back Questionnaire

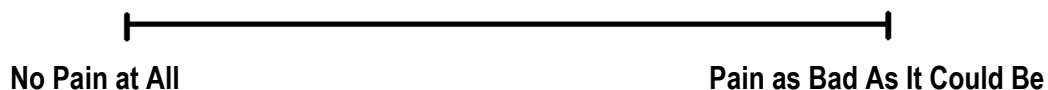

When your back hurts, you may find it difficult to do some of the things you normally do. This list contains sentences that people have used to describe themselves when they have back pain. When you read them, you may find that some stand out because they describe you *today*. As you read the list, think of yourself *today*. When you read a sentence that describes you today, put a check next to it. If the sentence does not describe you, then leave the space blank and go on to the next one. Remember, only check the sentence if you are sure it describes you today.
