

2019 Medicare Therapy Cap

Coverage by Medicare is limited to **\$2,040.00** for outpatient physical therapy/speech-language services combined, from January 1, 2019 to December 31, 2019. You and/or your secondary insurance are responsible for the balance that Medicare does not pay, up to the allowed amount. If services go beyond this amount and therapy is still necessary modifiers may be added to claims, but once the final threshold cap of **\$3,000.00** is met services will no longer be covered by your insurance, and you will be responsible for any remaining balance.

If you have received physical therapy at another clinic or have had speech-language therapy during the year you may have accrued costs toward this limit. You are responsible for knowing how much you have met.

Have you received physical therapy or speech therapy, services this year at another facility?

YES NO

I have read and understand the above information regarding my Medicare Part B coverage. I am financially responsible for my co-pays and any services provided that exceed the \$3,000.00 limitation cap.
